MEMORANDUM FOR JOHN HOLDRIDGE

FROM: Winston Lord

SUBJECT: Instructions for Warsaw Meeting

Per our conversation, HAK instructed the following:

- The instruction cable should be held up until we get a firm date set for the meeting.
- There are no problems with the State changes except for one: as indicated, the new third principle in paragraph 8 should not include the phrase "including the Taiwan area."
- HAK did not react specifically to the issue you raised concerning a possible time limitation on the higher-level meeting and leaving a small liaison staff behind; you could focus him on this again when a date is set and when the cable is ready to be sent out.

I have told Bob Brown of State Secretariat that this should not go out until we have a firm date and that the phrase on Taiwan in paragraph 8 should be deleted. I said that you would be passing the same information to EA. Once a firm date is set, State will check with us again before sending out the cable.
